

Pam loves the outdoors, living on a farm and having sheep to inspire her artistic process. She shears her sheep, dyes the wool and then uses it to create unique landscapes, that she calls Watercolour with Wool. Since she came up with this method and loves to create with people she started offering her workshops where you get to play with wool and make art in a fun and new way.

Pam will be offering her **workshop** on **Wednesday March 16**, from 1:00 to 4:30 at the Signal North Gallery and is part of ***The Art Sampler*** workshop series. This Workshop is part of a package of two workshops, and in conjunction with the Fluid Inks Workshop
